The cash incentive is paid by the lessor on the commencement date.

Accounting assumptions and demo boundaries

4. Scope confirmation

Demo scope: Fixed rent; monthly arrears; no options; no modifications.

No ownership transfer, purchase option or residual value guarantee.

No CPI-linked rent, service components, deposits or indirect taxes.

No amendments, impairments, subleases or foreign-currency transactions.

5. Separate management inputs - not extracted lease terms

Illustrative approved annual nominal IBR: 8%, compounded monthly.

Monthly periodic rate: $8\% / 12$. No daily-rate convention is applied.

Illustrative qualifying initial direct costs paid: INR 12,000.

Prepaid rent at commencement: INR 0.

Operating classification is a sample management assumption.

An actual lease requires a documented ASC 842 classification assessment.

6. How this demonstration works

Download this PDF, then select Extract sample lease in LeaseFlow.

A local template parser reads text and identifies eight labelled fields.

Finance reviews the fields and enters the accounting assumptions.

A deterministic engine calculates the schedules and journal proposals.

No live AI model, OCR service, ERP posting or real approval is connected.

All parties, premises and amounts in this document are fictional.
